

SWIMBOY

Floating EVA hose with impact resistant PP helix

- smooth bore
- good vacuum resistance
- flexible

MEDIUM

PROPERTIES

Structure:

Floating EVA hose with impact resistant PP helix

Characteristics:

Flexible and handy EVA hose, phthalate-free, reinforced with an impact-resistant hard PP spiral. The completely smooth core ensures low pressure loss and guarantees the highest possible flow rate. The corrugated ceiling offers excellent flexibility. Very low flow resistance, good restoring force (after compression or buckling)

Applications:

Cleaning of swimming pools, filter technology

Temperature range:

-20°C up to +60°C

Colour:

Transparent with blue spiral

Screw cuffs available!
